

Face the Liars -- And the Truth

By Anna Von Reitz

I am going to prove to you that the commercial corporations that have been serving "as" our government, are Liars. I am going to do this using one fantastically famous example. The atomic bombing of Hiroshima and Nagasaki, Japan, never happened.

This Chestnut was so widely distributed and so universally believed, that it traumatized two generations of people and continues to haunt us today --- but it is complete --- and obvious --- bunk. If atomic bombs had been dropped on Hiroshima or Nagasaki, those cities would still be uninhabitable today and would remain uninhabitable for thousands of years beyond today.

Look at what happened to Sodom and Gemorrah. Still desolate and abandoned. Still radioactive.

Sand turned to glass eight feet under the soil surface.

THAT is the work of an atomic bomb. It takes thousands of years to decay the radioactive elements released in an atomic bomb blast. Thousands.

Look at Hiroshima and Nagasaki today, all bright and chipper, with lovely parks and war memorials. No radioactivity beyond the norm. No layer of glass underlying the cities.

The plain and simple truth is that what was used at Hiroshima and Nagasaki was a new kind of "dirty" incendiary bomb. Oh, it's terrible, no doubt about that--- but it's not an "atomic" bomb.

The governments of the world lied through their teeth and kept right on lying, anyway. They still teach this lie in public schools all over the world.

The actual dirty incendiary bomb technology depends on flammable and explosive metallic elements and metallic oxides. Where have we encountered that before?

Oh, the Chemtrails. Strontium, Barium, Aluminum Oxide, Thorium, Lithium, Magnesium.... its been a Who's Who of flammable and explosive metallic elements and metallic oxides pouring down out of the sky for the past thirty years, compliments of the Vatican and the Democratic Political Party.

If they couldn't have and control America as a plenary oligarchy, they were happy to burn us alive, poison the landscape and poison the food supply, and undertake other genocidal measures to express their displeasure.

So that's why we have been exposed to all this pollution -- the insane selfish will-to-power of a few nasty old men, generally summed up as the membership of The Pilgrim Society and all the Worshipful Masters, exemplified by their Drudge Queen, Nancy Pelosi.

So, face the fact that you are dealing with Liars.

And if they would lie about such a centerpiece of "world history" as the atomic bombing of Hiroshima and Nagasaki, even seven-plus decades afterward, what else do you think they have lied about?

All they know how to do is lie, lie, lie, and lie some more. As I have told you all from the start, these people lie on a professional scale. They lie for fun. They lie for profit. They lie for sport. Every lie is a prayer for them in their twisted "religion" because they worship the Father of All Lies.

The Bigger the Whopper, the more powerful the prayer. Or so they think.

And this is what you left in charge of running your government, because they were in a Middleman position, and they lied to you out of one side of their mouths, and then lied about you out of the other.

At the end of the day, all lies come home. The Truth, as they say, will out.

Here's the fact. Lincoln left the Union Generals of the Grand Army of the Republic in charge of the nation's money and safety.

They betrayed that trust to enrich themselves.

Lincoln had no authority to do what he did, anyway, so that's all null and void on the face of it. As we have come to terms with the facts, we have removed General Order 100, which has been the basis of all their presumed authority--- and their operational playbook for 157 years.

Thanks to these Liars and their bankers, America is bankrupt in two out of three jurisdictions. We are bankrupt in the air. We are bankrupt on the sea.

It's their fault, not ours. They ran up all these debts "in our names" without our knowledge or consent, just like any credit card hacker does.

If we left it to them, they would claim that there is nobody left "at home" on the land and soil of this country, so we would be unable to claim back our actual assets and all the credit that is owed to us, too.

But they are Liars, so we didn't leave it to them.

We corrected the False Registrations and claimed back America for Americans all by ourselves. All that is left is for the rest of you to come home and take up the oars in your own State of the Union.

Now, they have got themselves into a pretty pickle. They have been operating in evasion of the Constitutions that give them the right to exist on our shores, and they have cheated and dis-served their Employers. While intending to bankrupt us, they have in fact bankrupted themselves.

Think --- shooting yourself in the foot.

So there's Mr. Trump, bankrupt on the sea and bankrupt in the air. He and his Generals cooked up the desperate idea of doing a "simulated war exercise" on our shores, as an excuse to access our credit for this "defense expenditure".

So they literally declared "war" on the Common Cold and shut down the world economy as part of a war game. Creative, but no bananas.

The 6.2T appropriation that the Territorial Congress made as a "stimulus-relief-well-we-can't-decide-what-it-is" package was divvied up with \$300 Billion to the people and all the rest going to the bankers and big corporations.

Moreover, the \$300 B was supposed to be issued as individual checks or direct deposits to -- purportedly -- settle all our individual claims against the Pope and his Municipal Government corporations.

That is, they were going to give you a couple of pennies out of the billions they owe, and then tell some more Big Fat Lies to the effect that by your acceptance of these pitiful little checks, you waived your rights and donated your assets and forgave all the Municipal debts.

And then, the military bankers working for the Territorial Government corporation aka, British Crown, planned to come in and buy up what is rightfully your interest in the Municipal Corporations ---- using your credit to do it.

That's why the military bankers have been sacked.

You will notice that you haven't heard a word about the stimulus-relief-don't-know-what-it-is package lately. They are no longer dangling those little \$1200 checks in front of your noses, are they? No. Well, there's a reason for that.

As outlined above, they were going to do that as a ruse to get you to accept \$1200 as your settlement of their Municipal debts, which are in the millions if not billions owed to you and your State.

So, we, the lawful government of this country, accepted the \$6.2 T as a gift from the Pope and the Queen and the Bank of Scotland, and we Fixture Liened all their signatures and contracts and physical currency and coinage as assets backing the debt.

If they have to pay it themselves and get no big payoff in return, they aren't so keen on the scheme. Meantime, poor Mr. Trump is left neither afoot nor a-horseback, and all his advisers are running around squawking like chickens in a chicken yard. What to do! What to do! Blame China! Blame China!

That's not going to work, either. No matter how many Talking Heads they plaster on the news waves. The rest of the world, and indeed, the American People know, that China did not cause this. Indeed, we have good reason to know who did cause it, because the Government of Westminster has already fully admitted that they did it.

Look at the new British Twenty Pound Note. There you will see a holograph of a 5G tower and right above it, the laboratory symbol for the Corona Virus.

The British Crown did this and they were arrogant enough to admit it.

So everyone can quit the phony "Blame China" narrative, too.

Besides all this, America, you have been buying goods "Made in China" for years. You've seen all those tiny labels on everything from soup to shinola: "Made in China".

While you were paying for these goods at the checkout stands all over America, the Chinese were not being paid for the goods at the other end of the pipeline. They shipped the goods in good faith. You paid for them in good faith. But something was happening in between.

Your payments back to China were being siphoned off. And this resulted in an absolutely mammoth Trade Deficit with China.

Now, the American People are not at fault for this. The Chinese workers are not at fault for this. Whoever was in charge of paying the Chinese is at fault for this.

And don't take any wooden nickels or excuses.
